Danish multifunctional design for stylish living in small spaces!

If you are living a "One-Room Life" or just need to gain more space in your home -

You are at the centre of our attention!

Multifunction means more functions on the same amount of square meters, but it only makes complete sense if design, comfort and quality go hand in hand.

We strive to design furniture that fulfills these criteria - furniture with a potential to make a positive difference in your everyday life.

Please enjoy our 2015 collection

Creative Director

25 years of hand made Danish quality comfort

The core of the One Room Living is an undivided and easy bendable mattress, which ensures a firm and supportive surface for relaxing, sleeping and sitting.

Over the past 25 years, we have continually developed and refined our mattresses in order to improve comfort and durability.

Every single mattress is hand made with great care and attention to quality and details at the Innovation factory in Denmark.

Quality, durability & environmental care

A One Room Living sofa bed is designed to last forever.

The conceptual design idea of One Room Living not only allows you to customize your sofa, the knock down design of the frames also ensures that all parts of the sofa bed can be maintained as years go by. Worn out frame parts can be replaced, mattresses and covers can be renewed.

We take great pride in our high quality standards and durability and provide a **lifetime warranty** on both slats and gears on all models. Our Customer Service will be happy to help you.

Should you decide to part from your One Room Living sofa bed, disassembly and recycling of all parts is possible.

a mattress:

Layers
of
comfort

All our sofa bed frames are equipped with beech-wood slats. The combination of frame and mattress provides a dynamic and supportive comfort when you lie down as when you sit.

Add a top mattress to provide an even higher comfort during night and protect the cover from any damage at the same time.

The One Room Living mattresses are defined by being flexible and bendable, which allows them to shape into sofa position and head elevation positions. This provides a unique, even and undivided mattress surface in daybed and bed position.

Choose a mattress

How do you prefer your mattress?

Classic

A comfortable, classic mattress with three layers of breathable, carted cotton on top of an 8 cm freon-free polyether foam core with one layer of carted cotton underneath. The cotton core is environmental friendly as our production facilities makes it possible for us to use our excess foam in our mattresses.

Firmness Rating: FIRM

Please note: Classic Skater-Alvis mattress for Skater & Alvis sofa beds

Latex

The Latex is a fusion mattress with a 12 cm high-resilient latex core surrounded by a layer of breathable, carted cotton. A supple natural mattress of high quality and longevity that adjusts to your body.

Firmness Rating: SOFT

Please note: Only available for mattress size: 140 x 200 cm.

Spring

The Spring is a fusion mattress with 12 cm pocket spring surrounded by two layers of breathable, carted cotton on top and one layer of carted cotton underneath. A high resilient luxury mattress of high quality and longevity.

Firmness Rating: MEDIUM

Please note: Mattress size in 120 x 200 cm has a 9 cm pocket spring

Special mattress _ **Soft Spring**

Please note:
Only for Fraction, Minimum, Vidar & Aslak frames / This mattress will be fixed to the frame / Only available with the special non-detachable cover style SOFT SPRING _ see page 46 / Detachable covers can not be used on this mattress.

Soft Spring is an 18 cm ultra-soft spring mattress. The special combination of a core of 10 cm membrane-bounded pocket spring surrounded by two layers of hyper soft foam makes it high resilient.
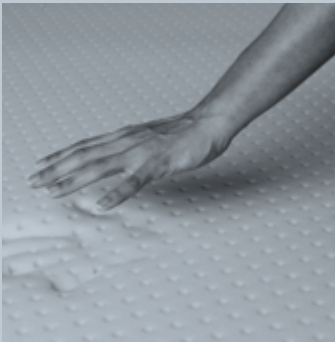

Firmness Rating: SOFT
